

Binary "2 Leg" System

- One of the most fair and exciting systems to work.
- You have a LEFT Leg and a RIGHT Leg.
- You simply need to bring one person on your LEFT leg and one on your RIGHT leg and then help them do the same.
- You can continue to personally bring people onboard and help place those people under your other team members below - essentially helping them build their business which helps everyone on that leg.

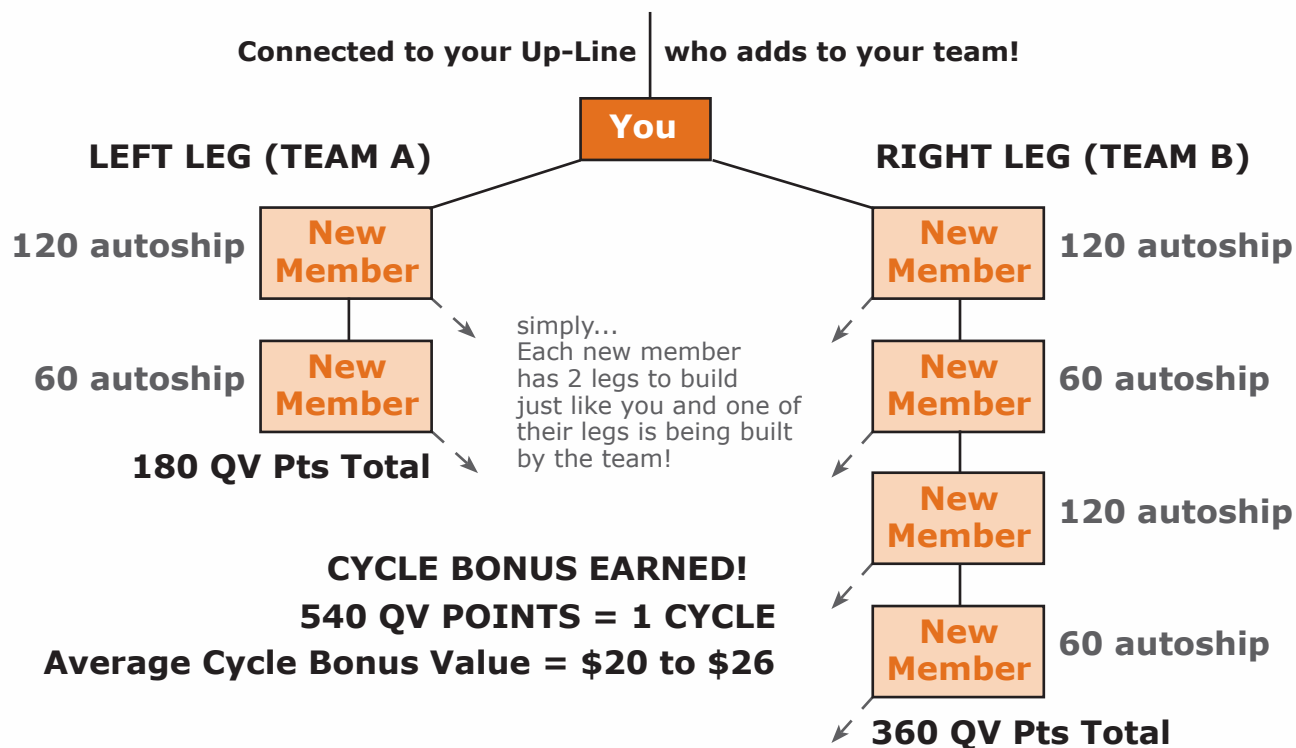

The members who put forth a little effort into this system will surely see the rewards. Those that just sit and wait simply will not. You must be willing to share, introduce and have your team help you to maximize your success with Vemma.

That's what OurVemmaTeam will do with you!

How your business grows...

Vertical Placement

How Cycle Bonuses are Achieved

BEST Part - You get credit for all sales below you regardless of the enroller!

Qualifying for Cycle Bonuses

1. Be on autoship of \$120 per month.
2. Personally enroll someone on you right leg and someone on your left leg that is on \$60 per month autoship minimum.

The power of the...

Compounding Effect

Illustration provides 2 Months to share and grow business...

**Month 3
10 Cycles**

X \$25/cycle =

**\$250 Residual
for One Month**

**Month 4
10 New
Cycles**

**\$250 Month 1
+ \$250 Month 2**

**\$500 Residual
for One Month**

**Month 5
10 New
Cycles**

**\$500 Month 1 & 2
+ \$250 Month 3**

**\$750 Residual
for One Month**

**Would \$750 a month make a difference?
And Remember that's just the start!**

The power of... Duplication

If everyone grows by adding just 2 members in a calendar year...

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan
2	4	8	16	32	64	128	256	512	1024	2048	4096	8190

Looking at the duplication principle above, you will easily see that the binary system is by far the most simple structure ever used in compensation plans. A simple 2 leg approach = duplication = 8190 people in 1 year!
